

## Job Specification: Server/Web Developer

### Company Profile Intrasonics Ltd

Intrasonics is a growing and highly ambitious company. It has developed a technology which is gaining increasing interest and traction in the marketplace and as a result is expanding in line with a rapidly growing customer base and corresponding revenues.

In this position, you will have the opportunity to become part of the team which is enabling this growth and will be joining the company at a very exciting time.

Intrasonics offer a competitive remuneration package, a stimulating work environment and an attractive location to the south west of Cambridge.

More information about the company and technology is available see:

<http://www.intrasonics.com>

### The Role

You will be a member of the team responsible for developing the server and network communications components of our range of consumer and business to business products.

The role will involve:

- Developing administrative and consumer facing web interfaces
- Implementing interfaces between Intrasonics and third party systems
- Developing algorithms to process and synchronise data from Intrasonics enabled devices including mobile handsets.

### The Person

You should:

- Have an active interest in current and future trends in mobile and internet technology
- Have good communication skills and be able to commit to and meet deadlines
- Be a self starter who gets things done
- Enjoy working in a dynamic, small company environment

Essential skills:

- Extensive experience of LAMP development using PHP 5
- Relational database design and use
- Javascript development including AJAX/JQuery
- A solid understanding of object oriented design

Desirable skills:

- LAMP server administration (Debian/Ubuntu)
- Experience with MVC web application frameworks
- Expertise in other languages (especially Java or C)
- Experience with NOSQL solutions
- Distributed/Scalable computing
- Mobile development
- Unit testing using xUnit
- UML

We anticipate that you will have a technical degree or equivalent.
